Agenda

TCRCD PROJECT

Case Mountain, BLM Project

Recent wildfires have burned 32 of the 37 giant sequoia groves on National Forest system lands in California killing an unprecedented number of giant sequoias. There is a need to manage ecosystems for fire resilience. The Case Mountain Sequoia Grove complex is located in a high fire danger zone and is across the drainage from a grove that recently burned. To date in a partnership with the Bureau of Land Management we have treated over 700 acres of forest land.

Tulare County Resource Conservation District | 3530 W Orchard Ct, Visalia, CA 93277
